

TSM CONSULTZ

BPO Recovery Desk Case Packet

Synthetic receivables case designed for recovery prioritization and financial exposure analysis

SYNTHETIC DEMONSTRATION PACKET

Designed to demonstrate TSM Neural Core document intelligence, case creation, prioritization, explainability, decision support, delivery packaging, HITL governance, mission tracking, and executive rollup.

01 — Recovery Desk Case

Field	Synthetic Value
Case ID	AR-2026-01842
Client	Synthetic Health Billing Services
Account	SYN-ACC-77104
Gross Billed	\$112,000
Payments Posted	\$25,580
Open Balance	\$86,420
Age	94 days

02 — Remittance / Denial Record

Primary denial: Medical documentation not received.

Denied amount: \$61,300

Remaining balance after other payments: \$25,120

Follow-up history: Two prior calls; no complete reconsideration package documented.

03 — Documentation Inventory

Document	Status
Clinical summary	AVAILABLE
Provider note	AVAILABLE
Original claim	AVAILABLE
Payer denial	AVAILABLE
Remittance advice	AVAILABLE
Prior reconsideration package	NOT FOUND

The documentation inventory contains evidence relevant to the denial, but the prior follow-up notes do not show that the full evidence set was submitted.

04 — Contract / Recovery Notes

Client service agreement allows recovery work on aged receivables where documentation supports reconsideration or corrected-claim activity.

Recovery desk note: “Prioritize cases with evidence already available internally and a clear payer action path.”

DEMO TRIGGER: The packet contains a large open balance and enough supporting evidence to justify a targeted recovery action.

05 — Payment History

Event	Amount / Status
Original billed	\$112,000
Payment 1	\$18,400
Payment 2	\$7,180
Open balance	\$86,420
Potentially recoverable denial bucket	\$61,300

TSM Expected Output — Executive View

TSM Field	Expected Finding
Priority	HIGH
Gross Exposure	\$86,420
Potential Recovery Opportunity	\$61,300
Primary Blocker	Evidence not assembled into a complete reconsideration package
Confidence	87%
Recommended Action	Assemble identified evidence and submit targeted reconsideration for the \$61,300 denial bucket.
Delivery Package	Recovery submission package
Human Decision	Required before submission

Wow-factor: This case is designed to demonstrate TSM's ability to turn an aging AR packet into a prioritized recovery opportunity with financial exposure and a concrete next action.
