

TSM CONSULTZ

Mortgage Loan Exception Packet

Synthetic lending file designed for document reconciliation and decision support

SYNTHETIC DEMONSTRATION PACKET

Designed to demonstrate TSM Neural Core document intelligence, case creation, prioritization, explainability, decision support, delivery packaging, HITL governance, mission tracking, and executive rollup.

01 — Loan Application

Field	Synthetic Value
Loan ID	MORT-26-004817
Borrower	SYNTHETIC BORROWER
Property	1250 Desert View Ave., Phoenix, AZ
Purchase Price	\$515,000
Requested Loan	\$485,000
Scheduled Closing	08/28/2026
Occupancy	Primary Residence

02 — Income Verification

Source	Monthly Income
Loan Application	\$12,400
Employment Verification	\$11,750
Recent Pay Statement	\$11,750
Variance	\$650/month

The application and verification records do not agree. The discrepancy may affect qualifying-income calculations and should be resolved before final approval.

03 — Bank Statement

Statement period: 07/01/2026–07/31/2026

Ending balance: \$72,418

Condition: Underwriting file currently contains one statement period; updated statement requested prior to closing.

Deadline: Updated documentation requested no later than 08/24/2026.

04 — Appraisal & Underwriting Conditions

Item	Status
Appraisal	Completed — \$522,000
Income discrepancy	OPEN
Updated bank statement	OPEN

Item	Status
Employment verification	Received
Title	Preliminary commitment received
Closing	08/28/2026

05 — Processor Notes

Processor note dated 08/20/2026: “File is otherwise progressing toward closing. Please clear outstanding income and asset conditions before final underwriting review.”

DEMO TRIGGER: The file combines a material income discrepancy, an open asset condition, and a near-term closing deadline.

TSM Expected Output — Executive View

TSM Field	Expected Finding
Priority	HIGH
Transaction Exposure	\$485,000 loan
Primary Exception	\$650/month income discrepancy
Additional Exception	Updated bank statement required
Deadline	08/24/2026 documentation / 08/28/2026 closing
Recommended Action	Recalculate qualifying income, obtain updated statement, and route for underwriting review.
Human Decision	Required before final approval

Credit-union demo angle: Show how TSM can sit above existing lending workflows and convert a document-heavy loan file into a prioritized exception queue and executive-ready decision package.
